STUDY 1 (MECHANICAL TURK SAMPLE)

What is your sex?

- Male
- Female

We hear a lot of talk these days about liberals and conservatives. When it comes to politics, how do you usually describe yourself?

- Extremely liberal
- Liberal
- Slightly liberal
- Moderate
- Slightly conservative
- Conservative
- Extremely conservative
- Haven't thought much about it

Generally speaking, do you usually think of yourself as a Republican, a Democrat, an Independent, or what?

- Republican
- Democrat
- Independent
- Other party

(Depending on answer:)

Appendix B: The Treatments

Study 1: The “Qualifications” Experiment (Mechanical Turk Sample)

In the table below, we include the text for the experiment’s four main conditions. Respondents in the three treatment conditions were then also randomly assigned to one of two responses or no response from Reeves, which followed Simpson’s attack. Because the response conditions (text included below the table) had no effect, we do not discuss them.

Sexism response: “Reeves’ campaign responded by issuing a statement denouncing Simpson’s remarks. ‘For him to call Deborah Reeves unqualified is ridiculous and smacks of sexism,’ the statement said. ‘We think the people of this district deserve a campaign that doesn’t involve attacking women’s qualifications.’”

Special interest response: “Reeves’ campaign responded by issuing a statement denouncing Simpson’s remarks. ‘For him to call Deborah Reeves unqualified is ridiculous and smacks of hypocrisy,’ the statement said. ‘Simpson is beholden to the special interests that are funding his campaign, not the people of this district.’”

Thinking about the two candidates you just read about, how favorable is your impression? On a scale from 0 to 10, with 0 representing very unfavorable and 10 representing very favorable, how would you rate each of them? Use the sliders below.

Below you will see a list of words or phrases. On a scale from 0 to 10, please indicate how well each word or phrase describes *Deborah Reeves*. On this scale, 0 means that the phrase does not describe *Deborah Reeves* well at all, and 10 means that the phrase describes *Deborah Reeves* very well. Use the sliders below.

Below you will see a list of words or phrases. On a scale from 0 to 10, please indicate how well each word or phrase describes *Martin Simpson*. On this scale, 0 means that the phrase does not describe *Martin Simpson* well at all, and 10 means that the phrase describes *Martin Simpson* very well. Use the sliders below.
